

Defense Solutions Holdings Inc. / DFSH Announces Distribution Agreement with iRobot

EXTON, Pa., May 11, 2009 -- Defense Solutions, Inc., an international project management and executive consulting firm, a wholly owned subsidiary of Defense Solutions Holding, Inc. (OTC Bulletin Board: [DFSH - News](#)), announces that the Company has signed an agreement with iRobot Corporation (Nasdaq: IRBT), to distribute its iRobot PackBot[®], a multi-mission tactical mobile robot, in Iraq and Afghanistan. iRobot is a designer and developer of robots for the consumer, government, and industrial markets worldwide. The iRobot PackBot will be used by military and government ground forces.

The iRobot PackBot, currently in use by US forces, is a perfect fit for Iraqi Security Forces, as the responsibility to find and neutralize roadside bombs, car bombs and other IEDs, as well as unexploded ordinance shifts from US forces to Iraqi forces. Defense Solutions will offer the iRobot PackBot to allow the Iraqi Security forces to perform dangerous missions while keeping military personnel and first responders out of harm's way.

“We are excited to be a distributor of iRobot’s PackBot product line in Iraq and Afghanistan,” commented LTC (Ret) John A. Little, President of Defense Solutions. “iRobot provides one of the best tactical mobile robots in the world, and we are committed to delivering these units to countries that desperately need to improve the safety of their government, military, and people. We hope to expand on our relationship with iRobot as we continue to build our presence in countries that are in need of our end-to-end solutions.”

About Defense Solutions:

Defense Solutions Holding, Inc. is headquartered in Exton, PA with offices on four continents. Established in 2001, Defense Solutions’ founding corporate philosophy is to deliver the world's best solutions to our service members so they can perform their jobs with minimal risk. Defense Solutions has consulted with and worked for US Federal and State departments and agencies, the White House, and international allied organizations including the Iraqi Ministry of Defense, the North Atlantic Treaty Organization (NATO), and the Multi-National Force in Iraq to devise and implement strategies supporting armed forces and civilian programs. Many of these programs directly support US and allied soldiers in combat and veterans in retirement. Defense Solutions’ European office maintains exclusive agreements with European partners to deliver several world-class technologies and capabilities to US and allied nations to include new production and retrofit of armored and combat vehicles, spare parts, and ammunition, supported by end-to-end integrated logistics, training, and maintenance solutions.
